

## **LETTER OF APPRECIATION**

1. I would like to extend my appreciation for the amazing work done by you as a CNC programmer. The endless hours that you have spent working on various project and the professionalism that you have portrayed has impressed the management immensely. Particularly your self-motivation planning and organizing ability in the following events are mention worthy:
  - a. Only responsible person for reading and interpreting design to CNC programs for specially KSY rubber factory's various mold making and several complex shape parts to CNC programs of new building and repair job.
  - b. Making re-nesting all CNC programs for Hi-speed boat project. Which program come from south Africa and has contain technical problem. That particularly saved huge time of acquiring the project successfully done.
  - c. Above all making a store management software for plater shop sub-store. Which is trace-out and calculation of all machinery and tools for organize plater shop sub-store.
2. We have been following each process very keenly as its success was of utmost important to us. We believe that seeing our diligence, self-motivation and focus is going to be a source of inspiration as well as motivation for every officer and worker of KSY. We see a positive air in KSY with your enthusiasm and motivation. We hope that this positivity flows sincerity and whole hearted dedication for the successful completion of the project with professionalism beyond call of duty with your own initiative.

3. Please accept my sincerest gratitude for your contribution for the project and with that you would keep up the same in future too.
4. One copy of this appreciation letter will be preserved in your personal file for future reference.
